Re: Letter of Support for the New JACC

Dear Juneau Arts & Humanities Council,

It is the pleasure of Juneau Douglas Little Theatre—soon to be Juneau Ghost Light Theatre—to support the building of the New JACC. We believe that this building, with its central location in Downtown Juneau will provide ample opportunities to local theatre organizations, including our own, to rehearse, meet, and perform to the benefit of the people of Juneau. The arts are so important to our emotional needs both as an audience and as performers or artists.

Without art, it would be difficult to experience the world through another perspective to challenge your own paradigm and see things in a new light. We would become stagnated in our own isolated views, distant from one another, and colder as a community.

Juneau is one of the most artistic communities in the county for its creative diversity and for its size. We are dense with talent and ripe with new ideas, and this complex will be a blank canvas for many amazing projects for years to come. We think that our organization and the New JACC will be mutually beneficial in that this space will allow our organization to produce more high-quality productions, and our patronage will help support the complex. We hope that you accept our letter of support for the New JACC.

Sincerely,  
The Board of JDLT
